

The latest scientific knowledge in medical research as well as the most modern equipment is used in diagnosis and therapy. Education and training, research and patient care are all linked together at the highest level.

The university hospital is situated in the city centre, which is extremely convenient for patients and visitors. Not far away from the university hospital one can find the vibrant pedestrian zone with lots of small shops and comfortable pubs. The hospital's buildings lie mainly on the garden of the margrave's palace and accomodate more than 1,400 beds.

The university hospital is easily accessible via the motorway A 73 (exit Erlangen-Nord), via the ICE train station Erlangen and the Airport Nürnberg. Short-term parking spaces are to be found in front of the entrances of the medical institutions. A modern parking garage (called "Parkhaus Uni-Kliniken") with 380 daily and weekly parking spaces can be reached via Palmsanlage. Further long-term parking spaces are to be found on the large parking area behind Erlangen main station.

Uniklinikum Erlangen, with its 42 departments and eight institutes, encompasses all fields of medicine.

The free "CityLinie" takes you to our university hospital every 15 minutes. The accessible buses depart from the bus station (behind Erlangen main station/platform 1) and stop at the stops **H Unikliniken/Maximiliansplatz** and **H Krankenhausstraße** (at the intersection with Universitätsstraße), among others.
